This is a Basic Tutorial on how to play the Lowrider game for newbies.

▣ **The beginning:**▣ Welcome to The Lowrider game! As you can see you start with a small grip of cash and a 63'Impala. You can buy other cars, but we will talk about that later.

▣ **Controls:** W = Move forward. S = Backwards, A = Turn Left, D = Turn right, Up arrow = Lift Back, Right arrow = 3 Wheel motion right, Left arrow = Left 3 wheel motion, Down arrow = Lower back. I = Lift front wheels, K = Lower front wheels, J = Lift Front left, L = Lift front right. H = Hop front, B = Hop back, V = Hop all four, F = Activate Flipper, 1-4 pump assignment.

Making Cash: Making money in the game is quite simple, battle a CPU or Computer, Woot Cash!!! No, the easiest way to make cash if you are new is to do hops for 500\$ at a time, this is in case you lose, you don't lose all your money. You bet 500 he bets 500, That makes \$1,000, when you have 20 grand, goto the lowrider upgrade and paint shop.

The Lowrider Upgrade and Paint Shop:▣ At the lowrider upgrade shop, you have this: **Pump one(Amount) and Pump 2, 3, and four**

. The upgrades can turn your lowrider to a

double pump

, when up grading, try to upgrade 4 at a time, then spend else on batteries and suspension.

Also there is the

batteries

. Batteries add Power to your hops, the more the batteries, the higher you hop. Batteries are very important, when I first started, I upgraded to max batteries then upgraded the pumps. This way you can dominate the CPU and start doing the \$1,000 dollar bets.

Suspension, and flipper.

Suspension makes it to where your car can raise higher. Suspension is another important thing, you need to hop higher but you are hittin' tha bumpa? Upgrade suspension!

The Flipper.

You don't need to upgrade the flipper, the flipper just makes your car be able to flip over, kinda useless. The convertible is self explanatory...

Pump assignment.

Pump assignment is how you make A dancer, pressing 1 raises a wheel, ETC. You can hop rear and side to side using it.
